## Local Skiway Corp. Formed

Another big step towards the development of a major ski area for Bethel was taken Monday of this week with the formal incorporation of the Sunday River Skiway Corporation by the Ski Area Organization Committee which was appointed following the public meeting held on April 9 at the American Legion Hall.

Following two weeks of intensive effort on the part of all committee members, and on the best legal advice obtainable, it was decided to organize the Corporation without further delay in order that it might be qualified to offer its securities to the public under both the state and federal statutes. It is estimated that the processing of these qualifications may take from three to four weeks; and, considering the amount of time it will take to develop the ski slope after sufficient capital is raised, the members of the committee were unanimous in their opinion that no time should be wasted in getting the legal red tape unwound. A public offering of the Corporation's capital stock will be made just as soon as the necessary clearance can be secured from the governmental authorities.

Addison C. Saunders was elected President of the Corporation. Other officers will be: Murray W. Thurston, Vice President; Wilbur R. Myers, Treasurer; and Henry H. Hastings, Clerk.

In addition to the four officers above-named, the following were named as Directors: Kimball Ames, Avery Angevine, Paul Bodwell, Guy P. Butler, Philip H. Chadbourn, Howard W. Cole, Stanley E. Davis, Elwood F. Ireland, Paul Kallay, Milton Mills, Herbert Morton, Jr., and John W. Tinward.

While the attorneys are clearing away the legal underbrush, several of the Directors will be continuing their voluntary efforts in the real underbrush on and around Bald Mountain in preparation for the drawing of final plans and maps for construction estimates.

## COMMENTS FROM THE TOWN MANAGER'S OFFICE

Bids for a new dump truck were opened at the last meeting of the Board of Selectmen. It was voted to accept the bid of the Carter Equipment Company for a 1953 International, Model 170. This truck is larger than the 1934 Chevrolet that is being turned in. The dump body is the same size, rated 3 yard, but can be built up to 4 yards. The trade in difference is \$3,700.00 and will be paid from the earnings of the truck rental account. Bids were also received from Bennett's Garage, of Bethel, and Ripley & Fletcher, of South Paris.

Last week we made the monthly distribution of surplus food. The following items and amounts were received for distribution: Cheese, 150 lbs.; Dry milk, 216 lbs.; Flour, 800 lbs.; Rice, 200 lbs.; Butter, 288 lbs. The distribution of this food is handled by the Division of General Relief in Augusta for the U. S. Department of Agriculture. Notices are received periodically notifying of the foods available for the month and the rate of distribution. The amount ordered is based on the number of eligible persons times the rate of distribution. The rate of distribution is established by the Dept. of Agriculture and is the factor that determines the amount that we shall receive. Currently there are 183 eligible persons receiving surplus foods. Distribution is also made to eligible cases in Albany.

Sincerely,  
Harold L. Bean

## Planning Board Submits First Zoning Report

The planning board, authorized at the annual town meeting in 1957, has agreed on a preliminary plan for division of the town into three types of zones as follows: 1. residential and farming; 2. commercial; and 3. residential.

Following are the recommended commercial zones:

1. An area 100 feet in depth extending along each side of Main Street.

2. An area 100 feet in depth extending along the southside of Railroad Street from Main Street to a point 100 feet west of Mechanic Street.

3. An area 100 feet in depth extending along the south side of the Gilead Road (Route 2) in West Bethel from a point 200 feet west of the West Bethel Cemetery to the intersection of the West Bethel Flat Road with the Gilead Road.

Following are the recommended industrial zones:

1. An area extending north of the Grand Trunk Railroad, bounded on the west by Pleasant River, on the north by the Androscoggin River, on the east by a line running 200 feet west of, and parallel to, the Mayville Road, on the south by the Grand Trunk Railroad.

2. An area extending north from Railroad Street, bounded on the west by a line running 200 feet east of, and parallel to, the Mayville Road, on the north by the Androscoggin River, including Hastings Island, on the east by the Bryant Pond Road (Route 26) and the Middle Intervale Road, this area including the east side of the Androscoggin River along the Middle Intervale Road to a point one mile north of the intersection of the old Bryant Pond Road and the Middle Intervale Road, and on the south by Railroad Street.

3. An area extending along the Grand Trunk Railroad, bounded on the west and north by the Bryant Pond Road, on the east by the Bethel-Greenwood town line, on the south by a line 500 feet south of, and parallel to, the Grand Trunk Railroad with the exception that this area on the south side of the railroad shall extend only to within 100 feet of Main Street.

All areas not designated as commercial or industrial zones are residential and farming.

It should be emphasized that this is not a final plan but merely preliminary recommendations, and the committee will welcome any questions or suggestions prior to the public meeting which will be held in the near future.

A more detailed outline of the proposed ordinances will appear in the Citizen next week.

The committee consists of: Chairman, Henry H. Hastings; Thomas Brown, Paul Thurston, Mrs. Ruth Ames, Richard Bryant, and associate members, Hugh Thurston and Charles Heywood.

## CONGREGATIONAL CHORUS TO PRESENT ANNUAL CONCERT SUNDAY

The West Parish Congregational Church of Bethel will present its adult, high school, and junior choirs in their seventh annual spring concert of sacred music Sunday evening, May 4, at 8 o'clock. Bethel is fortunate in having not only talented local musicians, but also the fresh young voices of Gould Academy students. This combined choir numbers 50 voices and the junior choir has 25 members. One selection will feature all 75 voices, and the antiphonal anthem sung on Easter, with the adult choir on the platform and the high school choir in the rear balcony, will be repeated.

Featured soloists will be Margaret C. Bean, contralto, and Leslie G. MacCune, soprano, both of Bethel. Florence Christie, organist, will graduate from Gould this year. An outstanding musician, her talents will be greatly missed. The choir will be directed by Elizabeth D. Tibbets, director of music for the church.

The format will be the same as in previous years, an exemplification in music of a typical Protestant service. No words will be spoken throughout the service. The offering will be used toward church expenses, among them will be additional collars for the junior choir.

Decorations and a reception for all to honor the choir members and Mrs. Tibbets will be arranged by members of the Women's Fellowship. All friends of sacred music are cordially invited to attend the concert and reception.

Characters do not change. Opinions alter, but characters are only changed.

## Annual Meeting Youth Council Held Here Sun.

About 200 youths representing the Oxford County Christian Youth Council gathered at Bethel Congregational Church Sunday, to honor their leader of eight years service, Mrs. Mabel Brown of Norway.

Out-going president, Clarke Hill of North Bridgton, and Bob Cutting of Norway, public relations officer, served as co-masters of ceremonies. Miss Betty York, of Bethel, presented roses to Mrs. Brown and incoming president, Jack Mansur of Fryeburg, a plaque inscribed "To Mabel, our living example of faith in action." Out-going president, Clarke Hill of North Bridgton gave the surprise package containing a new 35 mm camera.

Speakers giving brief eulogies to Mabel Brown for her work in the spiritual leadership of youth, were Miss Marion L. Ulmer of Portland, representing the Maine Council of Churches; Rev. Lewis Milk of Dixfield; and Harold Perham of West Paris, assistant leader in youth council work. Also, a letter of congratulations was read from Rev. Bertram F. Wentworth, co-founder with Mrs. Brown of the Oxford County Christian Youth Council.

After the presentation the following officers were installed: President, Jack Mansur of Fryeburg; vice president, Lucy Howard of Dixfield; secretary, Karen Kilbourne of Bridgton; and treasurer, Shirley Robbins, of Norway.

The Bethel youths had charge of the "get acquainted hour" and welcome; Dixfield youths gave the response; South Paris group handled the opening worship service; and group singing, Bethel Methodists.

Speakers were Rev. Alden Matthews, reporting on missionary work in Japan, and Miss Marion L. Ulmer, on youth council work, with a closing address on faith in action, by Mabel Brown.

The supper hour was followed by discussion groups, the topic being Faith in Action, led by Stanley Brown of Bethel; Walter Fox of Norway; Rev. Leslie Rose of Bridgton; Rev. John Crose of North Bridgton; Rev. Lewis Milk of Dixfield; Rev. Don Goodwin of Portland; Rev. Don Hendrick of West Paris; and Harold Perham of West Paris.

The closing worship and installation of officers was handled by the Bethel youths, closing with a giant friendship circle around the church, thus ending the most successful and happy event in the eight years of the youth council history.

## CHAMBER OF COMMERCE TO HEAR PARTISAGE ON MEETING NEXT TUESDAY

The Bethel Chamber of Commerce will hold its regular monthly meeting on Tuesday evening, May 6 at the Legion Hall. Dinner will be served at 6:30 followed by the business meeting. Several matters of importance including the summer information booth will be discussed. The speaker for the evening will be Winfield Partridge of Norway, who will discuss planning and zoning. Mr. Partridge is chairman of the Norway Planning Board which recently acquired federal funds to carry out their project there. It is believed that he could be of great assistance in the future planning and zoning of Bethel which is becoming more of a necessity each day.

The Chamber requests the full cooperation of all local residents in the observance of "Clean-Up Month" during May. Tourists are tremendously important to this area throughout the year, and about this time annually a little extra effort is required by everyone to clean up the debris caused by the long winter and make this home and place of business more attractive. It's our town, let's keep it the beauty spot of Oxford County.

Mrs. Constance Alger of Norway stated Mrs. Betty Thurston last Thursday afternoon.

## To Hold CD Alert May 6

Maine residents will see and hear a lot of life-saving information the same kind they would hear under attack conditions—when Civil Defense units spring into action May 6 during Operation Alert.

Although there will be no wide-scale mobilization of forces, except for police units during a take cover period, lifesaving CD instructions will be brought directly to the public by all mass media outlets just as they would during an actual emergency.

Cooperating to bring these realistic instructions to Maine residents are all Maine daily newspapers except the Lewiston Sun-Journal, and some dozen weeklies. This Civil Defense material will cover two full pages.

Radio stations are also offered a tape containing ten announcements, patterned from the emergency news instructions. Television will probably carry CD material.

Public participation in this drill is confined to a ten-minute take cover period at the sound of a 3-minute warning siren or three minutes of short blast siren on the morning of May 6. This will be preceded by an alert signal which means "tune in your radio for further instructions."

County and local CD control centers will be on duty for 12 hours on May 6 and 7 to handle messages concerning a mock attack by long range bombers.

## ACROSS the DESK

From the Ravenswood News, Ravenswood, W. Va.: When the chips are down, the youth of today has proved itself its courage—its heroism is evidenced in a thousand battlefields, and the small white tombstones in the cemeteries of two hemispheres bear testimony to the fact that they are not soft, they are not pleasure-made, they are not given—nothing less than their lives.

But it is surely not inappropriate either, to call attention to what may well be one of the fundamental shortcomings of today's young men and women, and that is their lack of interest in the church of which they should be a part. Today's young men and women, on the testimony of any number of veteran pastors, are poor parishioners; they show no interest in the life of their church or parish.

They may be active in their attendance at church, in the Junior Chamber of Commerce, in affairs on the state and national level, but they have no time for purely church activities.

This attitude of mind, this lack of interest in one's church is a spiritually dangerous condition. Its effects are already evident.

Picture a church campfire—the kind that once those good people of church about the size of an egg

Right in the center, where the coals are heaped together, there is a hot, burning flame, and all the coals in the vicinity of that center are red with heat. But just try taking one of those coals away from the center, put it off to one side, and see how soon it will grow, first lukewarm, then cold, without heat. And so it is in the church. The church and parish are in God's providence, the instruments used to bring men and women into union with God. Just as soon as people cut themselves off from the church, they drift away not only from the church, but from God as well. And one of the sad facts of American life is that many young people are, in cold fact, drifting away from the church and from God.

And this is all the more sad because young men and women have so much to offer the church and to contribute to the vitality of church life. They have as yet no adult responsibilities; they can give more completely of themselves to the service of God.

This loyalty to the church can be developed by a father and a mother who insist upon doing, as a family, those actions that are part and parcel of one's knowing, loving, and serving God. Loyalty to family will benefit loyalty to the church to which that family belongs.

### THE AMERICAN WAY

CONCRETE EDUCATION DESTROYING OUR SCHOOLS

By John T. Flynn

EDITORIAL NOTE: John T. Flynn is a noted author, lecturer, and radio commentator.

There's one thing you have to say for the sponsored. It never gives up. Here we are in the middle of a recession—a recession that could develop into a major depression and all brought about by the spending and taxing policies of both political parties in the years since World War II. But does that stop the boys in Washington from shoveling for greater and greater federal expenditures? Not at all. They're like the drunkard who knows the more he drinks the worse the hangover is going to be, but he keeps on drinking anyway.

The most vicious of this group are those who keep calling for federal spending on education. Unfortunately, the President himself has fallen for the false notion that all the that best American public education can be cured by the federal government scattering a few billion dollars of the taxpayers' money here and there. And since this is a congressional election year the politicians are particularly susceptible to the lobbying of the National Education Association, which promises to speak for the nearly million public school teachers of the United States.

The National Education Association has been lobbying for years for federal aid to education. Now the efforts have become almost frantic. During the last year alone, the association has sent out more than a million circulars to its members, urging them to write their congressmen and senators, and to demand that the federal government take over the education of the nation. The association has also been busy in the courts, fighting to keep federal aid to education from being cut off. In the process, the association has been able to keep the federal government from doing what it should be doing—cutting off the flow of federal money to the states.

It is curious that the N.E.A. should be so busy lobbying for federal aid to education. For the fact is that the federal government has been spending more than a billion dollars a year on education since World War II. And yet, the quality of education in this country has not improved. In fact, it has declined. The reason for this is simple: the federal government has been spending its money on the wrong things. It has been spending it on building new schools, on buying new books, and on paying the salaries of teachers. But it has not been spending it on the things that really matter—on improving the quality of the curriculum, on improving the quality of the teaching, and on improving the quality of the students.

And the way to do this is to stop the federal government from spending its money on education. The federal government should be allowed to spend its money on the things that really matter—on improving the quality of the curriculum, on improving the quality of the teaching, and on improving the quality of the students. But it should not be allowed to spend its money on building new schools, on buying new books, and on paying the salaries of teachers.

death the labor.

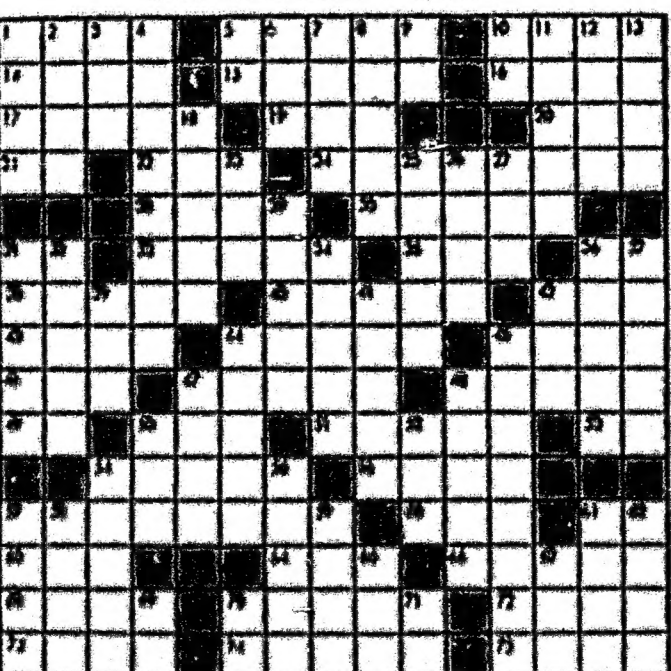

Life is like that: first it's most of the time we second handmen in its limitations and its narrow corridors. At most, we see a little patch of dusty soil with cheerful weeds around it. As we climb heavily and steadily up the steep, dark stairway, it seems a monotonous, grand, leading nowhere.

But then come the windows, and we see the beauty of it all! We are too, that we are making progress. Then finally, we reach the summit.

We call it heaven. Life's pilgrimage is not a stairway to oblivion. It is a goal!

Current taxes, from all sources federal, state and local—are taking a full third of the income of all citizens to finance government activities. Taxes at present rates from current sources are taking more than 30 per cent of some individual incomes and more than 60 per cent of the net income of most corporations. The present tax rates are approaching confiscation. The economy cannot much longer sustain present tax rates on current sources, and it should be re-examined. —Harry F. Byrd, U. S. Senator from Virginia.

## TODAY'S meditation

Read John 14:1-7. "And when I go and prepare a place for you, I will come again and will take you to myself, that where I am you may be also." (John 14:1-7, RSV.)

A MINISTER friend was conducting a revival far from home, when he received this brief telegram from his sister: "Daddy with Christ, 10:30 a. m. Thursday." Their beloved father had left them for another world, but there was no feeling of regret or doubt, only the affirmation of victory.

This simple message expresses features of the Christian belief in the immortality of the soul. It affirms that those who live in Christ never really die, but live on after this present life. We have this promise from Jesus' own lips: "Whoever lives and believes in me shall never die."

The message contained in the telegram affirms also that when we leave this world we do not go to some strange foreign place. We go to be with Christ. Did not the resurrected and living Lord say He would go to prepare a place that where He is there we may be also?

Prayer  
Our Father, we humble ourselves in prayer before Thee. By Thy grace, enable us, we beseech Thee, so to live in Christ here that we will find ourselves at home with Him in the life to come. This we ask of Thee, our Father almighty, through Jesus Christ, Thy Son and our Redeemer. Amen.

Thought For The Day  
To be alive forever is to be with Christ.

**WAGE PROTECTION GIVEN WOODSMEN**  
Judge Edward T. Signoux recently granted an injunction in the United States District Court at Portland, Maine, that will afford protection to State of Maine woodmen against subminimum wage competition from woodmen brought in from Canada to work in Maine.

The complaint upon which the injunction was filed by Stuart Robinson, Solicitor of Labor, acting on behalf of James P. Mitchell, Secretary of Labor, United States Department of Labor, United States Limited and its President and General Manager, Dr. Wilfred Morris, of the Camille DeLamotte Province of Quebec, Canada. It alleged that thirty-five (35) Canadian woodmen were employed long hours without payment of the one dollar an hour minimum wage, or even more wages were working forty hours in any week. Also, the lumber company records did not accurately record the hours actually worked by the woodmen.

The complaint also alleged that the defendants were continuing such violations against the requirements of the Fair Labor Standards Act of 1938, as amended, better known as the Federal Wage and Hour Law.

### NEW BOOKS AT THE BETHEL LIBRARY

Adults: "Anatomy of a Murder" by Robert Traver, is the well written story of a murder and the ensuing trial. It is unusual, since the author is a lawyer, in its insight into law. It is absorbing in its suspense.

"The Catapult" by Robert Goldson is a novel set on the coast of Spain. In a small village an American archeologist and his assistants search amid the castle's ruins. They unearth a treasure as well as delving too deep into the lives of their party and of the villagers still deeply affected by the Civil War of the 30s. A good yarn.

"Salvation Johnny" by Nels Anderson Scott. A beautiful and rewarding story of the Salvation Army.

"Jeb Stuart, The Last Cavalier" by Bunk Davis. In this fine work Bunk Davis has revealed Stuart as one of the most gallant examples of the Southern gentleman fighting and dying for his beliefs.

"North From Rome" by Helen MacInnes. This is a wholesome tale of high adventure and romance. With danger and death never distant, the action sweeps north from Rome to a tense, unpredictable climax in Perugia.

Children: "The Road to Miklagard" by Henry Treece. An exciting adventure story. A strange and exciting series of adventures takes Harold and his shipmates from their native fjords to Ireland, Moorish Spain, and across the Mediterranean to the golden domes of Constantinople (Miklagard) and after many hardships overland through Central Europe to their home again.

"Man Against the Unknown" by Joseph Lockhouse. This colorful book presents the conquerors, ex-

You get more pleasure out of driving—greater comfort, smoother riding, easier steering when you get a wheel balance job done with the modern Hunter Balancer. Yours will be a safer car on the highway, too.

After his major league career he became manager at Jersey City, then most successful with the Rochester Red Wings and finally with the Buffalo Bisons. For his work he was selected Manager of the Year. He was still keen with an eye affliction at the height of his success as a manager. This led to total blindness at a time he could well have been expecting another call from the managers.
